

AUTISM AND PLAY

EMMA MOAT, Play Therapist and Counsellor

DAVID MOAT, Clinical Psychotherapist

Cambridge Play Therapy, East Cambs Therapy Centre

Saturday 14th July 2018

09:30 - 16:30

**Abington Barn, Great Abington
Near Cambridge**

It is widely accepted that social development is strongly influenced through play. As children move through the various stages of play, they are acquiring a vast range of skills for effective interaction and connection. It is this "connection" that can prove so difficult for children with autism to achieve.

This course aims to equip delegates with ideas for using play activities for children with autism, with a view to enabling effective social development.

£95

(includes delicious home-made lunch)
